An investment-banking professional with superlative academic and professional background

Arvind has over 4 years of experience across the fields of investment banking, corporate banking and business research. He has been closely involved in all facets of equity and debt transactions. His assignments have spanned across multiple sectors including energy, infrastructure, textile, agriculture, real estate and hospitality.

At IFCI, he was responsible for business development and management of banking relationships with the large and medium corporates.

At Evalueserve, he led research projects in the energy and power sector for a Fortune-5 oil major and was presented with a 'Distinguished Employee' award by the Clients for his contributions.

His skill set includes financial modeling, investment appraisal, valuation, business research and business development.
